DETAILED ACTION

Applicants' amendment filed 8/26/2005 has been entered. Claims 1-2, 4-15, 17-27 are now pending.

Allowable Subject Matter

Claims 1-2, 4-15, 17-27 are allowed.

The following is an examiner's statement of reasons for allowance:

As discussed in the previous office action, a gain equalizing device comprising phase shifting components is known in the art. Sorin (US 6,847,742 B2) teaches the closest prior art device wherein LCD variable phase shifting element is used in conjunction with passive phase elements to provide gain flattening effects.

However, none of the prior art fairly teaches or suggests a gain equalizing device having a single optical path, a single substrate with stepped portion, and a pixilated variable phase shifting element that shifts the phase of light passing through at least a portion of the optical path as claimed in the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
